

LESSON PLAN
Geography of India (Major)
B.A. 3rd Semester (2025-26)

Theory Lesson Plan	
Week/Month	Topics
Week 1, August	Physical Divisions
Week 2, August	Drainage System
Week 3, August	Climate
Week 4, August	Soils and Natural Vegetation
Week 1, September	Major Crops and Cropping Pattern
Week 2, September	Green Revolution and its impacts.
Week 3, September	Development of irrigation sources
Week 4, September	Population: Distribution, Density and Growth
Week 1, October	Population Composition: Sex Ratio, rural and urban, literacy, work force, language and religion
Week 2, October	Resources: Production and Distribution of major mineral and energy resources.
Week 3, October	Major Industries: Distribution and Production of Iron and Steel, sugar and cotton textiles.
Week 4, October	Diwali Vacations
Week 1, November	Transport and Communication
Week 2, November	
Week 3, November	. Transport and Communication
Practical Lesson Plan	
Week 1, August	Identification and Delineation of Watersheds
Week 2, August	Land Use Pattern of India (Data Calculation)
Week 3, August	Land Use Pattern of India (Drawing)
Week 4, August	Occupational Structure of India
Week 1, September	Distribution of Population using Dot Method
Week 2, September	Age-Sex Pyramid of India
Week 3, September	Identification of Major Industrial Regions of India
Week 4, September	Rainfall Deviation Diagram
Week 1, October	Cropping Intensity Calculation
Week 2, October	Irrigation Intensity Calculations
Week 3, October	Preparation of Bivariate map of cropping intensity and irrigation intensity
Week 4, October	Diwali Vacations
Week 1, November	Revision and Finishing of Practical Files
Week 2, November	
Week 3, November	Revision and Finishing of Practical Files
Commencement of Examination
